

Art Unit: 3679

second lever (23) fastened to the revolving ring (18). Said The first lever (22) is made up of a radially more external part (24) and of a radially more internal part (25) that are connected with each other by an articulation (26) which is modifiable in order to be able to assume a first operating condition for the complete mutual locking of the two parts (24, 25) of the first lever (22) and a second operating condition of consent to the rotation of the radially more external part (24) of the first lever (22) in a direction of approach to the second lever (23). (Figure 2)
